Objectives

Motivated and multilingual individual with an educational background in computer engineering and web development. I am seeking a position that will challenge me in web development and programming.

Experience

January 2021: Le Wagon, Teaching Assistant

- Taught Ruby, Javascript and SQL to bootcamp students
- Provided one to one support to students with diverse profiles
- Delivered and supervised small group activities, accurately assessing their impact on individual students

May 2017 - June 2017: Ropes & Gray LLP, Paralegal Intern

- Acquired communication and teamwork skills in an office environment
- Achieved successful adaptability while undertaking responsibility in a professional environment

May 2016 - June 2016: Covéa Insurance, IT support Intern

- Gained valuable knowledge in physical and digital networking practises
- Contributed to maintaining the company intranet

Education

Le Wagon Web Development Bootcamp October 2021 - December 2021

La Salle URL (Barcelona Campus) Bachelor's Degree in International Computer Engineering 2018-2021

Education Portfolio

- Built from scratch and pushed to production a complete clone of Airbnb using Ruby and Javascript (<https://local-food-experience.herokuapp.com/>, https://github.com/Falafelqueen/local_food_experience) at *Le Wagon*
- Built the back end and pushed to production a medium sized mobile app using Ruby and Javascript. (<http://www.planetexchange.org/>, <https://github.com/CyprienDream/planet-exchange>) at *Le Wagon*
- Implemented a MySQL database management system along with some migration scripts written in cypher to the NoSQL graph database Neo4j (<https://github.com/CyprienDream/LS-Air>) at *La Salle URL*
- Followed a networking course and obtained the status of *Cisco Certified Network Associate Routing and Switching (CCNA)* at *La Salle URL*

- Solved the daily challenges of Advent Of Code Computer Programming challenges 2021 using different languages including Javascript, Python and Ruby (<https://github.com/CyprienDream/Aoc-challenges>)

Technical Skills

- Ruby on Rails
- Linux
- Javascript
- C
- SQL (MySQL, postgresSQL, SQLite)
- Cypher Query Language
- Git & Github
- Ajax
- HTML
- CSS

Languages

- *French*: Native or bilingual proficiency
- *English*: Bilingual proficiency
- *Spanish*: Basic proficiency

Hobbies

- Travelling (40+ countries visited)
- Piano
- Chess
- Football
